

Alex Johnson

alex.johnson@gmail.com | linkedin.com/in/alexjohnson | Washington, DC

EDUCATION

George Washington University | M.S. Computer Science | GPA: 3.8 | May 2026

University of Maryland | B.S. Computer Science | GPA: 3.6 | May 2024

TECHNICAL SKILLS

Programming: Python, Java, JavaScript, SQL, Bash, R

Data: Pandas, NumPy, Scikit-learn, TensorFlow, Apache Spark, Hadoop

Cloud: AWS (S3, EC2, RDS, Lambda), Google Cloud Platform, Azure basics

Databases: PostgreSQL, MySQL, MongoDB, BigQuery, Snowflake

Tools: Git, Docker, Jupyter, Tableau, Power BI, Linux

EXPERIENCE

Data Engineering Intern · Deloitte | Washington, DC | Jun-Aug 2025

- Built ETL pipelines using Python and Apache Spark processing 10GB+ daily data
- Designed data warehouse schemas in Snowflake for federal analytics platform
- Created Tableau dashboards for executive reporting, reducing manual reporting by 60%
- Automated data quality checks using Python scripts integrated into CI/CD pipeline

Software Developer Intern · Lockheed Martin | Bethesda, MD | Jun-Aug 2024

- Developed Python scripts to automate test reporting, saving 10 hours/week
- Built REST APIs in Java for internal logistics tracking application
- Maintained MySQL databases and wrote complex queries for reporting dashboards

PROJECTS

ML Job Recommendation Engine | Python, Scikit-learn, FastAPI, PostgreSQL

- Built a job recommendation system using NLP and cosine similarity matching
- Trained classification model on 50,000 job postings achieving 87% accuracy
- Deployed as REST API serving real-time recommendations to 200+ beta users

COVID-19 Data Dashboard | Python, Pandas, Plotly, AWS

- Aggregated and visualized public health data from 50 US states using Pandas
- Built interactive Plotly dashboard deployed on AWS EC2 with 1,000+ monthly users

LEADERSHIP & ACTIVITIES

GWU Association for Computing Machinery (ACM) · Vice President | 2025-2026

GWU Hackathon · 1st Place, Best Use of AI | Spring 2025

Teaching Assistant · Intro to Computer Science, GWU | Fall 2024
